RE: PHX and TUL Engine Work Update

On Wednesday, May 7<sup>th</sup>, 2025, American Airlines notified The Association of their intention to send some engine work being performed in PHX and TUL out to a vendor due to the tariffs being implemented by the current administration in Washington, DC.

The Company assured the Association that there will be no impact to our workforce.

We are engaged in conversation with the Company to get more details. As updates become available, we will provide them to the membership.

Please remember that your work is protected under the language provided in Article 6 – Recognition and Scope, in your Joint Collective Bargaining Agreement (JCBA). The Association will continue to hold the Company accountable to abide by this language.

Fraternally,

International Representative  
Transport Workers Union

President/Directing General Chair  
IAM Union District 142
